Band Bio/Press Text/Line-Up

Thrash Metal – Essen, Germany

When the stage is on fire and the crowd screams for more, **Justify** are right in the middle of it. The four-piece thrash metal band from Essen fuses relentless riff power, razor-sharp drumming, and uncompromising vocals into a sound deeply rooted in old-school thrash—yet fresh, modern, and charging forward without restraint.

Since their formation, Justify have quickly made a name for themselves in the scene. They've already shared the stage with international acts like **Bütcher** and **Mega-ton Sword**, tearing up clubs and festivals across Hamburg, Monheim, Flörsheim, Essen, and Oberhausen. Their reputation: uncompromising, high-energy, authentic.

With singles like “**Erase Them All**”, “**No Mercy Killers**” and “**Quartet of Death**” the band made it clear early on where the journey is headed: **forward**—no holds barred. In winter 2025, their long-awaited debut album „**Shadows of Agony**” will be released, a manifesto of pure heaviness that will firmly establish Justify as a rising force in the new wave of German thrash metal.

Justify stand for pure, honest thrash metal—played with unbridled passion and the unshakable energy of the Ruhr area. Those who experience them live know: this is nothing less than the true spirit of heavy metal.
